

The Board of Trustees has determined that there shall be no installations of vending machines except as approved by the superintendent and with Board approval. The superintendent will have the authority to determine whether such machines may be installed, where they will be placed, what items will be dispensed, and during which hours they might be used. Vending machines are operated as a convenience for students, staff and patrons. All revenue produced from this source shall be deposited in the designated activity funds as approved by the board of trustees. Revenues may be spent only on those purposes for which general revenue may be expended.

**Vending Machine Use**

1. Elementary Schools: Elementary students shall not have access to pop vending machines.
2. Junior High and High Schools. Vending machines may be operated in junior high and high schools on a 24 hour basis.
3. Students caught damaging vending machines will be subject to disciplinary measures.
