Under normal circumstances the Highland Board of Trustees shall not provide transportation for any pupil living less than one and one-half (1 1/2) miles from the school. The Board may require pupils who live less than one and one-half (1 1/2) miles from the nearest bus stop to walk or provide their own transportation to such bus stop. The distance shall be determined by the nearest and best route from the junction of the driveway of the pupil's home and the nearest public road, to the nearest door of the schoolhouse he attends, or to the bus stop, as the case may be. A day care center, family day care home, or a group day care facility may substitute for the students' residence for student transportation to and from school, providing that the child care facility is one and one-half (1 1/2) miles or more from the school to which the student is transported. School districts may not transport students between child care facilities and home. The Board may transport any pupil a lesser distance when in its judgment the age or health or safety of the pupil warrants.
