

The Board of Trustees of each school district may establish and alter bus routes. Such routes shall be determined for each year not later than the regular August board meeting. No Board of Trustees shall be required to route school buses or other passenger equipment over any road not maintained as a part of the highway district, county, state, or federal highway system, or by the state or national forest service, except that the primary requirements to be observed by the Board of Trustees are the safety and adequate protection of the health of the pupils.

The Superintendent will be responsible to the Board for establishing and altering bus routes.
