Assessment of Implementation of District Wellness Policy

As outlined in Policy 460.0, this assessment was done in November, 2014.

Student Nutrition staff from the State Department of Education conducted an administrative review of the National School Lunch Program and the School Breakfast Program at Highland School.

Highland School is largely in compliance with Policy 460 with room for growth in providing compliant foods in the vending machines in the gym lobby.

The assessment of the policy and implementation is ongoing and results will be posted on the school's website.

The policy was updated by board action in September, 2013 based on the Idaho School Boards Association model policy. There is a new model policy which will be reviewed in the next couple of months.

The Superintendent will continue to monitor the progress of implementation of the Wellness Policies.
